## Important Changes Happening

Father Chris has just made some changes in procedure for all liturgical ministers, including Altar Servers.

1. **The Altar Servers will no longer carry candles in the processions.**

Servers will process after the cross, as usual, and process in without the candles. When you reach the altar step, stand on either side as usual.

**When the priest bows, the Servers should also make a deep bow at the waist, like the presider.**

This is called a profound bow.

2. **The other change is that the Altar Servers will no longer go to the steps, after setting the table, to receive the gifts with the priest.**

This is because the people bringing up the gifts will now place them directly on the altar.

These changes are part of the many changes that the church will be making over the next couple of months. Father Chris will be talking about these changes each week at Mass.

The changes are coming from the **Sacramentary** (red book) that you hold for the presider. Even the name of the book will be changing to **the new Roman Missal**.

## Welcome New Altar Servers!

### WELCOME NEW SERVERS!

We welcome 10 new Altar Servers into the ministry!

Please make a special effort to show up when you are scheduled with them or to get a sub when you can't serve, so that they will have help.

We will be training more new Servers in November, who will be joining us on the next schedule during Advent.
